

5 O'CLOCK EDITION.

ALL the manufacturers of plug tobacco in the United States have organized themselves into a trust with a capital of \$25,000,000, which is to be represented by certificates in the most approved form. The public can view a rise of prices here with complacency, but not so the tendency involved and questions presented by this association of unchartered and irresponsible privileges.

It is time now for the public to put the stamp of condemnation on all "trusts." We have a coffee trust, a cotton seed oil trust, a Standard Oil trust, an iron and steel trust, a sugar trust and we might go on and enumerate a number of other trusts; and unless steps are taken to put a stop to it, everything we eat and wear will be included in the list soon. The combination of capital against the poor, in fixing the price of everything we eat and wear is not calculated to make Americans feel any too good natured.

Hoard's Dairyman is authority for the statement that during the last decade, or from 1870 to 1880 the population increased 30 per cent, while from 1880 to 1870 the cows increased very slightly, while the population increased about 25 per cent. For the whole period from 1860 to 1880 cows increased 45 per cent, on their number in 1860, while the population increased 59 1-2 per cent. What is now greatly needed is to ascertain the comparative ratio of increase or decrease from 1880 to date, not only of cows, but of all kinds of cattle.

A NEW YORK correspondent of the Springfield, Mass., Republican brings forward an interesting fact in a statement made by Governor Gordon of Georgia to an Englishman at a banquet in New York during the recent Centennial celebration: Gordon informed the Britisher that more men were killed and wounded in our civil war than England has lost in battle since William the Conqueror. The statement is absolutely true, and it offers to European military men food for reflection regarding our military capacity.

The Board of Stock Commissioners of Montana is after the butchers of that territory. Referring them to certain sections of the statutes that prevent the selling of beef without exhibiting the hides. Little doubt a stricter observance of such laws would save in the aggregate a vast sum of money each year to stockmen.

When the South Fork pleasure club fixed up the Conemaugh dam the law required the members to give a \$5,000,000 bond that no damage should result to dwellers below the dam. But it now develops that the officials who were required to demand and secure the bond neglected to do so. Such official negligence is of the criminal order.

CHICAGO, with a population twice as large as Boston, gave out of the public library to readers last year 1,114,954 volumes against 1,018,847 for Boston. It is reasoned that as heretofore the Boston library led all others in the country in extent of patronage, the library center is moving westward.

PHILADELPHIA, N. Y., June 24.—Special to the GAZETTE.] SAN FRANCISCO, June 24.—The American Pharmaceutical Association was convened in the Odd Fellows' building this morning. The Executive Council held a preliminary session, President M. W. Alexander presiding. The number of delegates in attendance is about 375, and elaborate preparations have been made to entertain them during their stay here.

Another Mink Observatory Comet. Special to the GAZETTE.] LICK OBSERVATORY, June 24.—Mr. Barnard discovered a faint comet on Monday morning at 2 o'clock in the right ascension, 1 hour 21 minutes, declination north 28 degrees 51 minutes. The comet is moving rapidly to the north and east. This is the fourth comet found by Mr. Barnard at the Lick Observatory, and the fourteenth discovered by him.

Not Cooney. CHICAGO, June 24.—The Chief of Police received a dispatch from Frankfort, Ind., stating that the suspect arrested there is not Cooney.

Johnstown on Fire.

JOHNSTOWN, Pa., June 24.—A sweeping fire broke out in the first ward at 12:30 o'clock this afternoon. The flames spread rapidly and in half an hour twenty houses were burning. All the engines in the place were called out, and the most intense excitement prevails. Nearly all the houses burning were more or less destroyed by the flood. The wind is high and the fire is spreading rapidly towards Kernville. It has gotten beyond the control of the fire department and now covers five acres.

A Nice Kettle at Fish.

OTTAWA, Ont., June 24.—It is stated in official circles that no action will be taken at present by either the Dominion or the British Government regarding the protection of British sealing vessels in Behring Sea. The question as to the right of the United States to the exclusive jurisdiction will for the present be held in abeyance, as on good authority it is learned the British Government is seeking the co-operation of the several maritime powers of the world with a view to joining in the dispute of the United States' claim, and in reference to the question of arbitration. The British Government requested the Dominion Government to take no action until a settlement had been arrived at in this way. It is stated that the several maritime powers which have been invited to take part in the settlement support the contention of the British Government that Behring Sea is not a closed sea. It is also stated that the claims for damages through seizure of British sealers by the United States cruisers will also be submitted to arbitration when the question of jurisdiction is taken up.

Fears of an Insurrection at Port-au-Prince—Advisors From Panama.

NEW YORK, June 24.—Captain Shaw of the steamer Delta, which arrived last night from Port-de-Paix, states General Hyppolite arrived at Cape Hayti and was about to rejoin his army before Port-au-Prince. Private letters received at Cape Hayti from Port-au-Prince stated that the city is in a very excited condition. Legitimate refusal to leave or capitulate, and there are great fears of an insurrection. Advice from Panama to June 15th, says Patrick Egan, Minister to Chili, had arrived on the Isthmus and was favorably received. He leaves tomorrow for the south.

The Nipale Coming Home.

WASHINGTON, June 24.—Word has been received at the Navy Department that the Nipale, the sole survivor of the American fleet at Samoa after the hurricane, has started for San Francisco under the convoy of the Alert. She comes direct from Samoa and will not stop at Auckland, but will touch at Honolulu. Temporary repairs made before the start, which have, it is believed, rendered the vessel seaworthy enough to undertake the voyage, which, under favorable circumstances, should be made in thirty or forty days.

Summary Retribution.

LOUISVILLE, June 24.—In Bell county last Saturday, B. W. Norwood of Birmingham, Ala., was shot down by an Italian named Tony Caravasso because he refused to withhold his employees' wages to pay for bonds bought of Caravasso and his brother. The Italian captured Tony and he was lynched; his brother was turned over to the authorities, and as they were taking him to jail, a shot was fired from ambush, killing him instantly.

The Aggressors Got the Worst of It.

HAVENSTRA, N. Y., June 24.—There was a bloody riot between Hungarians and Colored men in a brickyard at Jones Point yesterday. Four Hungarians were shot; one is dead and another is dying. The riot was started by the Hungarians trying to drown a colored man. Further trouble is expected.

Murder Trial.

CHARLESTON, S. C., June 24.—At the trial of Dr. T. B. McDow for the murder of Captain F. W. Dawson, proprietor of the News and Courier, the Court-room was crowded. The jury consisted of five white and seven colored men.

Another Fool Done For.

WOODSTOCK, Va., June 24.—Yesterday, five miles from here, Wm. H. Hamlin fatally shot his wife and then killed himself. Jealousy was the cause.

Cameron's Condition.

LANCASTER, Pa., June 24.—A report from Donegal Springs says Simon Cameron lives, but it is believed he is growing weaker.

Another Detective's Suspect.

CHICAGO, June 24.—An afternoon paper says the police here have a San Francisco suspect under surveillance in that city on suspicion of connection with the Cronin murder. He declares it was the photograph which was identified by several persons here as "Simmonds," the man who bought the Carlson cottage furniture. This photograph was furnished by Linka Dillon. Of it he says: "The original is the last man in the world to suspect of such a crime. When the police find Cooney and fail to identify him as 'Simmonds,' it will be time enough to give up the name. He is a Californian and has a lucrative business and an excellent reputation."

After Burke, the Murderer of Dr. Cronin.

WASHINGTON, June 24.—George A. H. Baker of the State Attorney's office of Illinois arrived in this city last night, bearing the application of the Illinois authorities for the extradition of Martin Burke, under arrest at Wilmington for the murder of Dr. Cronin. There will be no difficulty in the issuance of the extradition warrant, and no delay except that caused by the absence for the day of the President, whose signature is required to the warrant.

An Excitement in Oil.

NEW YORK, June 24.—The greatest excitement prevailed in the consolidated exchange to-day in consequence of the price of oil. The cause was the fact that the Standard people had brought about a settlement of the agreement with the producers protective association which was not expected to expire until July 1st. By this agreement the Standard Oil Company has the call on the 3,500,000 barrels held by the association at 62 cents, with charges since November 1st, 1887.

Sharp Advance in Petroleum.

PITTSBURGH, June 24.—There is intense excitement on the Petroleum Exchange. The market opened at 83 3/4 cents with a rush, and was forced up to \$1.01 before a half was made. It declined almost as rapidly back to 20 3/4 cents. There are fears that many brokers will be hurt. It is said the adoption of the proposition to deal in futures to-day was the cause of the sharp advance.

Enough to Hang Them.

CHICAGO, June 24.—Coughlin, O'Sullivan and Woodruff, charged with complicity in the Cronin murder, were arraigned to-day. Coughlin, asked for a continuance, but the others said they were willing to be tried at once. At the request of the State's Attorney the trial was put over till next term. The State's Attorney says he has enough evidence to hang them.

But a Few Hours to Live.

FREMONT, O., June 24.—12 M.—The physicians report a change for the worse in Mrs. Hayes' condition. Death is only a question of a few hours.

FREMONT, O., June 24.—Mrs. Hayes is sinking rapidly.

Big Fire in New York.

NEW YORK, June 24.—The works of the Manhattan Brass Company were burned this morning. Loss, \$300,000.

Left for Home.

CAPE MAY, June 24.—The President left for Washington this afternoon.

TALLY ONE.

Reno's Victory Over the Bones and Tambourine.

Reno's baseball club went to Steamboat yesterday to cross bats with a nine from Thatcher, Primrose & West's Minstrels, fully expecting to win, and they were not disappointed. The minstrel nine can do the burst cork act better than they can play baseball, in contention with the Reno's, at any rate, and there is yet room for improvement in the home club, although they put up better ball at each successive practice game. The minstrels have a very good first baseman and a tolerable good short-stop. They are sadly lacking in a pitcher, however. On the other hand Crotty, for the Reno's, pitched a speedy ball and has all the curves. With Ferguson to receive him the battery was a good one.

The minstrels were the first at bat. Gordon flew to short-stop and was thrown out at first. Daily went to first on three strikes and passed ball, and was put out at second on a steal. After three strikes Vogt was put out on the line—the minstrels starting in with goose egg for the first inning.

Dealy was the first to yield the willow for the home club, who struck to short-stop, went to second on short-stop's wild throw and went home on Crotty's safe hit to first, scoring the first run for the Reno's. Ferguson got to first on a safe hit and Crotty scored. Ferguson advanced to third on passed ball. Mazingo got to first on balls. Ferguson advancing to third on passed ball. Wilson flew out to short; Mazingo attempted to steal second and was put out, Ferguson coming home on the play. Williams was thrown out at first. Score, 3 to 0.

In the second inning the minstrels scored their only runs, by poor playing on the part of the Reno's, they making 3.

Murray made a safe hit to first, and White placed the ball in the field for two bases, Murray taking advantage of it and scoring. White took third on passed ball, afterwards scoring. Morton, Dealy and Crotty in their turns were declared out at first. Score, 5 to 3.

In the third inning not a burnt cork artist got to first. In this inning Wilson caught a hot liner, and made a fine stop of a hot grounder, throwing to first with accuracy.

Reno got a 0 in their half, which enlivened their opponents. The fourth inning proved another goose egg for the bones and tambourine, while Reno added 3 more runs to their score—8 to 3.

After playing the fifth inning and not scoring the minstrels threw up the sponge, and the game was declared in favor of Reno. Following is a complete score:

BASEBALL AND PICNIC NOTES.

Truckee vs. Reno next Sunday.

The interest in baseball is increasing.

Most of the people present were Renos.

The attendance at the ball grounds was estimated at about 200.

Zimmer's orchestra of Virginia furnished the music for dancing at Steamboat.

The Renos are negotiating for the grounds on the south side of the river owned by Richard Ryland.

Cannot the Renos afford to keep Crotty? He is a good pitcher. With him and Card they ought to do some good work.

On Thursday there will be a dance at Amory Hall under the auspices of the Reno club, to help defray the expenses of the Truckees. Tickets \$1.

A Multitude of Ailments.

The ailments which afflict the kidneys and bladder are so numerous, that merely to name them would fill a space far outrunning the limits of this article. Suffice it to say, that they are both obstinate and dangerous. To their prevention Hostetter's Stomach Bitters is well adapted. The stimulus which it lends to the action of the kidneys when they are lethargic, serve to counteract a tendency in them to lapse, first, into a state of pernicious inactivity and afterwards into one of positive organic disease, which soon destroys their delicate integuments, poisons the blood and causes death. A double purpose is served by this purgative. It promotes activity of the kidneys, and expels impurities from the blood, which has no natural channel of outlet, except these organs. Constipation, biliousness, fever and ague, rheumatism and dyspepsia, are also remedied by this medicine of through action and wide scope.

How He Became Famous.

The Walker, Iowa, News, says: Our old friend, Robert Baird, of Muscatine, Iowa, has been Secretary of the State Senate, and an active politician for years, but was never generally known until he had the color and used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and got into one of their advertisements. "Now he is famous." Here is what Mr. Baird said: "While I was in Des Moines, I was taken with a severe attack of bowel complaint. For two days I suffered intensely, trying several drug stores and paying heavy freight, but in vain. I finally bought a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and two doses of that brought me all right. It costs less than the drug-store preparations and I have the balance for my use. I consider it a grand remedy." 25 and 50 cent bottles for sale by O'Brien & Shoemaker.
